

Re: 18-22 Haverstock Hill – Design Supply and Installation of Farrat CineFLOOR PRO system

To Whom It May Concern,

AcouStruct Ltd were employed by VABEL Construction 6 Ltd to install the Farrat CineFLOOR PRO system to the basement level of a new residential development where the Northern Line runs close by.

The team at Farrat were easy to communicate with throughout the design phase and AcouStruct performed well over the duration of the installation. We were impressed with their professionalism, quality and the commitment displayed to the project as a whole.

The project was delivered on time and within our expectations and we would have no reservations in using AcouStruct on future projects.

Yours Sincerely,

Rachel Ricketts
Project Manager
