10th July 2019

Dear Sir/Madam,

AcouStruct Ltd were appointed by Midgard on our Regents Crescent site in Central London.

Their scope of works included installation of the Farrat CineFLOOR PRO system and providing supervision during the concrete pour to ensure that the acoustic isolation system was not bridged.

With excellent project management and site supervision, AcouStruct delivered the project on time and on budget. Throughout the construction phase, I witnessed complete co-operation between Midgard, AcouStruct and our other sub-contractors.

I can confidently recommend AcouStruct for works of this nature and look forward to working with them again.

Yours sincerely,

Sean Hedley
